**IN THE SPECIFICATION:**

In claim 35, line 2, ---an--- was inserted before “SH-EP”.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The claims are allowed in view of the failure of the prior art to teach or reasonably suggest plant transformation with a complex of constructs comprising a blocking construct comprising a barnase-encoding sequence operably linked to an embryo/germination specific promoter, said blocking sequence being fully inserted into an intron of a transgene of interest; said complex further comprising a recovering construct comprising a barstar-encoding sequence operably linked to a heat shock promoter. Applicant has amended the claims as suggested by the Examiner in the last

Office action. Basis for the Examiner's amendment to claim 15 may be found on page 20 of the specification, top paragraph.

Applicant's attempts to amend the specification in the amendment of 30 October 2006 are acknowledged. Those amendments do not comply with 37 CFR 1.121(b) regarding the proper format for specification amendments performed by Applicant. Accordingly, those amendments are repeated in the above Examiner's amendment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
